

**Ziller Calligraphy Inks** have submicron particles to give a better flow and smoother feel. Like artist quality gouache the price of each ink varies with the differing costs of the pigments.

The ink gives a solid rich coloured stroke. You can thin it with water or, if you need a thicker ink, add a few drops of Ink Thickener.

The inks are an acrylic polymer formulation and are waterproof when dry. Pen and brushes clean quickly and easily in water with a few drops of ammonia added.

The inks are fully intermixable to create a whole spectrum of colour; favourite colours can be mixed separately or colours applied to the pen for spontaneous effect.

Pigmented, light-fast, waterproof (acrylic) for dip pens & brushes.

Thin ink with distilled water, Fully Intermixable.

Clean up pen with water with a little ammonia.

30ml/1floz glass jars

5i28-GLOS	Glossy Black	£4.35
