

The **Microtee** is unfortunately no longer being manufactured

Linex 1001

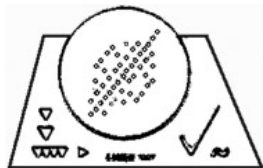

Is like a set square with holes. Place on a T-square, insert a fine pencil in the top hole and rule across the page. Without moving the T-square move the pencil down a hole and rule again... and so on until reaching the bottom hole. Move the T-square down so that the top hole is over the last line and rule again. (Code 8S001) **£6.25**

Linex Parallelograph

is similar but with a circular section that enables fine adjustments to be made to the line intervals.

£9.74 (Code 8S007)

Ruling Pens as you used to find in compass boxes. For fine lines and borders in gouache or Indian ink. Variable line width set by screw adjustment. The hinged version allows the blade to swing for cleaning without changing the width.

8R1191 Jakar 1191 £5.99
