

# STAEDTLER

With the **Mars professional** Staedtler has perfected the further evolution of the classic technical pen. For writing, lettering or illustration the Mars professional will become indispensable.

The integral tip is replaced at an economic cost with each refill essentially providing a new pen each time. Ideal for sketching, drawing, illustrating and lettering.

Features waterbased, acid-free, fast-drying black ink that is indelible and Dry Safe - you can leave the pen uncapped for up to 8 hours without drying up - and the high-precision synthetic tip is encased in a solid metal sleeve for durability. The barrel features a high-tech aluminum finish with ergonomic rubberized grip and anti-roll stop. Refills available include replacement tips, so your line precision is never compromised.

- 5 line widths 0.18, 0.25, 0.35, 0.50, 0.70mm  
Single Pen - comes in high quality case with hinged lid.
