

Gilding

Gilding has a long history of use and still retains its premier place as a decorative medium. Gold Leaf is available in books of 25 'leaves'.

1. **Loose Leaf** This is the most difficult gold to use and requires practice and special equipment to become skilled in handling the material.
2. **Transfer Leaf** is gold supplied on a tissue backing which allows easier handling. Gold can be fixed using a variety of mediums.

9X1TY Book of Transfer Gold 25 leaves	£18.00
9X1TY05 Five leaves Transfer Gold	£5.00

Mediums

- | | | |
|-------|---|----------------------|
| 9X3GA | Gum Ammoniac – natural Gum, purified water and preservative
Flows easily from a flexible pen or brush. Dries quickly to a transparent and glossy finish. Gold leaf can be laid immediately after it has dried by reactivating it with hot breath. | 30ml
£6.10 |
| 9X3GM | Ormoline Gilding Medium PVA based mixture for 'instant' gilding. Use like ink, ensuring plenty of fluid on the paper. | 30ml
£4.30 |
| 9X3GS | Water Gold Size Gum Arabic, gamboge resin, white vinegar and glycerine. For gilding or repairing on frames or paper. | 15ml
£5.30 |
| 9X3GB | Improved Gold Body Whiting, chrome yellow, arabic powder, glycerine and water. Use in place of Gesso for raised gilding. | 15ml
£4.80 |

Gouache, Inks and modern pigment markers are all made from metallic powders and contain no gold. They can be effective and are easy to use.

Tro-Col Metallic Powders are bronze powders mixed with dry dextrine glue. Mix with water.
